

**A powerful and pioneering invoice payment solution. Smarter and secure connections.**

Payments Hub is an invoice payment process and VAT recovery solution powered by TransferMate Global Payments and Taxback International. Payments Hub is available via the SAP Concur Partner App Centre providing SAP Concur customers with a better way to pay invoices with the unique value add of maximising your VAT recovery in the same step.

## HOW DOES IT WORK?

# Payments Hub - A Combined Solution

TransferMate has built a secure end to end global payments network enabling cheaper, faster and easier cross-border payments. By completely bypassing the traditional correspondent banking network, TransferMate provides a simpler, smarter and more secure way for businesses to send and receive domestic and international payments. Simultaneously, Taxback International's solution automatically identifies VAT charged on these invoices and determines if the VAT is charged correctly or not. If the VAT is charged incorrectly, they will recover it from suppliers and if charged correctly, they will recover it from the relevant tax offices.

A powerful solution to identify VAT charged on invoices and to recover the VAT from International tax offices, or from suppliers

Highly competitive FX rates – no International sender or receiver fees

Secure, same day domestic and cross-border payments - end to end transparency

Taxback International checks all invoices to identify incorrectly charged VAT and can contact suppliers directly to get the VAT refund

## THE APP

Our innovative, custom-built technology driven Payments Hub platform allows companies to better manage their invoice payment process and VAT recovery. It's an effective and easy to use system with payment data analytics, allowing customers to better manage and understand their invoice and VAT recovery process.

TransferMate Global Payments and Taxback International are ISO 27001 & ISO 9001 Certified. By streamlining your data transfer with our Payments Hub solution, you save time while ensuring your data is protected according to the strictest privacy policies and data security standards.
